Mobile wheelchair platform scale with handles and rollers

Features

- Especially suitable for weighing patients in wheelchairs because of the low-profile platform which can be approached from either side
- 1** The large steel weighing plate also makes it ideal for weighing obese patients
- Also ideal for rapid weighing of, for example, laundry carts, container trolleys, roller containers, etc. to 600 kg
- Lightweight, compact construction for mobile use
- 2** The scale can easily be transported using the two rollers and two handles and does not require much storage space
- PRE-TARE function for deduction of a known weight, for example of a wheelchair.
- Memory for ten PRE-TARE values
- 3** Level indicator to level the balance precisely
- Wall mount for display device, standard
- Universal external mains adapter included with delivery
- Protective working cover included with delivery
